**DETAILED ACTION**

***Election/Restrictions***

1. Applicant's election without traverse of claims 13-14 in the reply filed on 11/6/07 is acknowledged.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-23 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Chitty US 6,494,262.

Regarding claim 1, Chitty '262 discloses a method for cleaning a well with inert nitrogen gas comprising producing the nitrogen by non-cryogenic separation.

Regarding claims 2-23, Chitty discloses and describes the cleaning out of wells. Chitty further discloses purification of nitrogen through use of a membrane system, which would at least suggest separation of hydrogen, oxygen, and other non-nitrogen components of air.
